Officer Evaluation Report (OER)

Enhancements

U.S. ARMY

Situation and Purpose

Situation: The Officer Evaluation Report (OER)

- Is not reflective of current leadership doctrine (FM 6-22)
- Uses the same performance measures for all grades
- Does not engender Rater Accountability
- Could be shaped to better inform Leader Development and Talent Management

Purpose: Provide information about recommended enhancements and changes to the Officer Evaluation Report (OER)

Goal: An OER, as an *integral enabler* of Leader Development strategy, that more *accurately evaluates* officer performance and potential, increases *accountability* and better *informs* a transparent Leader Development and Management process. An element of a leader development system that engenders excitement across the Officer Corps

Background

▪ In August and November of 2010 Generals Dempsey and Casey, respectively, provided guidance regarding a comprehensive review of the Army Evaluation Reporting System. This guidance was not an effort to fix something that is broken, but instead directed a holistic assessment to keep the system relevant and adaptive to projected needs.

▪ **Key focus of the Evaluation Reporting System:**

- Re-establishing the company grade box check
- Establish and enforce evaluation accountability
- Reflecting current leadership doctrine
- Reducing the frequency of reports
- Encouraging counseling through improvement of the support form
- Incorporation of an ability to document, “data mine”, and identify talent
- Address the “one size may not fit all” assessment of different skills and competencies at different grades

▪ **SECARMY Memorandum, dated 9 Mar 11 – Directed review focus on:**

- Determine whether the evaluations system could be improved
- Consolidating and making applicable regulations more user-friendly
- Ensuring responsibilities are clearly defined and vested with appropriate individuals
- Assessing the usefulness of Academic Evaluation Reports
- Identifying clear standards to assist raters with drafting evaluation reports and provide others with an accurate understanding of the rater’s assessment of the rated Soldier

Phase 1 - Implementation

Phase 1 enhancements implemented on 1 October 2011 by Army Directive 2011-16

for OERs with THRU dates on or after 1 Nov 11

- ✓ Implement Senior Rater box check for all grades (COL and below, except CW5) but continue to mask 2LT/1LT and WO1 at CPT and CW3 (***there will be no closeout reports***). Grades affected by Army Directive 2011-16 will be automatically restarted.
- ✓ Incorporate comment on OER (Part Vb) by rater indicating completion or initiation of 360 Assessment on OER. (***msaf.army.mil***)
- ✓ Reduce multiple short term evaluations. Establish procedures for “Letter of Input” from one rater to the next at Senior Rater’s discretion.
- ✓ Make the OER Support Form optional. Require the Rater and Rated Officer to discuss duties and performance objectives – method used at the discretion of the Rating Chain.
- ✓ Implement successive positions by Senior Rater.
