

The DPRO Ribbon Toolbar

The DPRO Ribbon Toolbar has remained substantially unchanged since its creation, even as new modules and tools have been developed. With this version, all links in the DPRO Ribbon Toolbar have been reviewed, analyzed, and reorganized to increase the visibility of powerful new tools and to organize links systematically to improve usability for new users.

Use the image below to see the big organizational changes. Use the list as a reference to find out where your familiar links from the old Ribbon Toolbar have been placed in the new Ribbon Toolbar.

The New DPRO Ribbon Toolbar

The Old DPRO Ribbon Toolbar

Where are my links?
