NATIONAL GUARD BUREAU  
4501 FORD AVENUE, ALEXANDRIA, VA 22302-1454

NGB-ARS

20 Feb 92

MEMORANDUM FOR SEE DISTRIBUTION

SUBJECT: (All States Log #I 92-0077) FY 92 Fund Allocation for Phase II, Cardiovascular Screening Program (CVSP)

1. References:

a. AR 40-501, Para 8-27.

b. All States Log Letter I91-0422, dtd 27 Nov 91, Subject: FY 92 Cardiovascular Screening Program (CVSP), Phase II Funding Requirements for Army National Guard Soldiers

2. Funds were allocated in January 1992 for use in conducting CVSP Phase II testing, (encl 1). Funds are located in AMSCO 519892.F3ES35. These funds are identified for CVSP Phase II and are not to be utilized for other purposes.

3. For planning purposes, the listed dollar amount represents approximately one third of the total amount you can expect to receive in FY 92 for CVSP Phase II Screening. The total NGB-ARS budget for Phase II screening represents less than 67% of the funds requested to date. Additional funding may be requested and will be considered on a case by case basis.

4. Each State is advised to establish a priority list for CVSP Phase II funding. Factors to consider include soldiers going before a promotion/retention board, command selection, or soldiers with school requirements.

5. You are requested to make maximum use of active component facilities and other facilities available in or adjacent to your state. Active duty Army medical treatment facilities often have contracts for services and in most cases would welcome including the ARNG on these contracts, (contact the Chief of the Patient Administration Division for assistance). In addition, States have experienced significant savings utilizing local medical schools and physical performance laboratories located on or near university campuses. Other states have successfully established contracts with local VA Hospitals to have M-day clinicians utilize medical suites and equipment to accomplish Phase II screening.
