G1 Home

Welcome to the ARNG G1 Gateway

The Army National Guard G1 Gateway is a centralized source for ARNG human resources information. The site provides streamlined access to resources regarding Guard programs, processes, benefits, and policies.

Within the site, users will find tools to include process maps through the "HR Programs and Processes" tab. The "Policies and Regulations" tab links users to policy libraries maintained by ARNG personnel divisions. The Gateway serves the personnel community, Soldiers, and Families with accurate, Guard-specific information.

New Users

- Requesting access to a new application:** Select the application name from the list below, or click the G1 Orb in the top left-hand corner of the screen and select the application from the drop-down list. Then, complete the on-screen instructions to request access.
- Accessing an application:** Your five most frequently used applications are displayed in tabs on the Ribbon Toolbar. If you need to access an application that is not currently on-screen, select the application from the list below, or navigate to it from the G1 Orb.
- Viewing the site:** If you are having difficulty viewing the site properly, please look at the [System Requirements page](#) and ensure that your computer is running the correct software.
- Reviewing G1 Help:** Click the Help icon to review general information and instructions for the website. Each application also contains detailed help accessible via the ribbon toolbar. If you are having difficulty viewing the site properly, please look at the [System Requirements page](#) and ensure that your computer is running the correct software.

DPRO daily production numbers that the previous business day's numbers appear not later than (NLT) 5 PM (EST). For example, Monday's data appears NLT 5 PM (EST) Tuesday; Friday's data appears NLT 5 PM (EST) Monday. The exception to this rule is the last day of the month, when the data will be available NLT 7 AM (EST) on the second following business day.

While DPRO data is updated daily, not all of the source tables that feed the data warehouse are updated daily. TAPDB-G data is currently received on a daily basis when processed by NGB-AIS. DFAS Pay data is updated twice per month. Supplemental SIDPERS data, including Authorizations, Unit, Awards, and LSDB, are received monthly. Affected metrics may not change, or may only decrease to account for losses to the given populations.

DPRO

The Director's Personnel Readiness Overview (DPRO) application is a comprehensive management information system. It provides access to thousands of metrics that are updated daily and available for both current and historical dates. These metrics enable custom reporting in the areas of strength management, attrition, retention, accession, and military readiness. DPRO pulls information from more than a dozen primary data sources, including:

- Total Army Personnel Database - Guard (TAPDB-G) Authorizations
- TAPDB-G Personnel
- TAPDB-G Loss
- Army Training Requirements and Resources System (ATRRS)
- Standard Installation and Division Personnel Reporting System (SIDPERS) Awards
- SIDPERS Local Supplemental Database
- Recruit Quota System (REQUEST)
- Defense Finance and Accounting Service (DFAS)
- Military Entrance Processing Station Database (MEPS)
- Medical Operational Data System (MODS)
- Defense Eligibility Enrollment Reporting System (DEERS)
- Civilian Employment Information (CEI)
- Leads Database
- Information Management and Reporting Center (IMARC) Database
- Military Funeral Honors (MFH) Database
- VULCAN Recruit Sustainment Program (RSP) Database

The application also provides users with access to many data analysis and reporting tools:

- basic and advanced dashboards
- pre-defined reports
- drillable views
- historical trend tools

DPRO users can also create unique presentations, tailor reports, and communicate with other users.

The Director's Personnel Readiness Overview (DPRO) application is a... for both current and historical dates. These metrics enable custom... more than a dozen primary data sources, including:

- Total Army Personnel Database - Guard (TAPDB-G) Authorizations
- TAPDB-G Personnel
- TAPDB-G Loss
- Army Training Requirements and Resources System (ATRRS)
- Standard In Reporting Sy
- SIDPERS Lo
- Recruit Quo
- Defense Fin
- Military Entrance Processing Station Database (MEPS)
- Medical Operational Data System (MODS)
- Defense Eligibility Enrollment Reporting System (DEERS)
- Civilian Employment Information (CEI)
- Leads Database
- Information Management and Reporting Center (iMARC) Database
- Military Funeral Honors (MFH) Database
- VULCAN Recruit Sustainment Program (RSP) Database

The application also provides users with access to many data analysis and reporting tools:

- basic and advanced dashboards
- pre-defined reports
- drillable views
- historical trend tools

DPRO users can also create unique presentations, tailor reports, and communicate with other users.

DPRO

The Director's Personnel Readiness Overview (DPRO) application is a comprehensive management information system. It provides access to thousands of metrics that are updated daily and available for both current and historical dates. These metrics enable custom reporting in the areas of strength management, attrition, retention, accession, and military readiness. DPRO pulls information from more than a dozen primary data sources, including:

- Total Army Personnel Database - Guard (TAPDB-G) Authorizations
- TAPDB-G Personnel
- TAPDB-G Loss
- Army Training Requirements and Resources System (ATRRS)
- Standard Installation and Division Personnel Reporting System (SIDPERS) Awards
- SIDPERS Local Supplemental Database
- Recruit Quota System (REQUEST)
- Defense Finance and Accounting Service (DFAS)
- Military Entrance Processing Station Database (MEPS)
- Medical Operational Data System (MODS)
- Defense Eligibility Enrollment Reporting System (DEERS)
- Civilian Employment Information (CEI)
- Leads Database
- Information Management and Reporting Center (iMARC) Database
- Military Funeral Honors (MFH) Database
- VULCAN Recruit Sustainment Program (RSP) Database

The application also provides users with access to many data analysis and reporting tools:

- basic and advanced dashboards
- pre-defined reports
- drillable views
- historical trend tools

DPRO users can also create unique presentations, tailor reports, and communicate with other users.

Formation View

The Formation View is a tool used to graphically display Soldiers assigned to both authorized and unauthorized positions of a selected Unit, and to explore various attributes and metrics associated with those Soldiers. The tool also allows for the exploration of unfilled positions, and includes a link to the Excess Management Tool to identify potential candidates to fill those positions. It is accessed through the Analytics menu within DPR0.

Accessing The Formation View

1. Click the **Unit Management** menu, under the *Tools* section, and then select **Formation View**  Formation View
- Formation View appears on the screen, displaying summary-level data for the default metric, Authorized Percent Fill.

Note: Where applicable, the display metric "Percent" column is shaded (red-amber-green) based on the metric's approved scale, which is defined at the bottom left-hand side of the page. The map image on the left-hand side is also shaded to reflect the color of the aggregate assessment, and the numeric aggregate category totals are displayed above this icon.

As of 15 Feb 2012

Active Drilling Status Percentage

The percentage of Soldiers in the assigned strength that are not currently on NOVAL pay.

355,161 / 359,061

98.9%

Assigned Strength : 354,061
Authorized Strength : 354,249

G1 Digest

One of the ARNG G1's tools to improve personnel readiness is the ARNG G1 Gateway. Every week, featured news stories and announcements are posted to the site in support of the Director's Strategic Imperative. Subscribing to the Weekly Digest will ensure you receive updated ARNG G1 information from the National Guard Bureau. The Weekly Digest email, distributed on Thursdays, summarizes G1 strategic communications, policies and regulations (PPOMs, EIOMs, SMOMs and MEDSOMs). The attached G1 Gateway Summary sheet describes additional site capabilities contained within the G1 Personnel Gateway.

To sign up, go to <https://g1arng.army.pentagon.mil> and click "Subscribe to the Weekly G1 Digest" in the middle of the page. Enter your email address and click "submit." Thank you for staying connected to the ARNG G1 and all you are doing to improve personnel readiness. Do something to promote shared knowledge and share this useful link with your Soldiers.

Conclusion

- DPRO is an excellent tool for leaders at all levels to PROPERLY manage personnel.
- Utilization of this tool will lead to more accurate USR management, which better empowers NGB to acquire resources for the states.
- DPRO is a tool that cannot be “broken” at the user level; the best way to learn the system is to USE the system and learn the capabilities of all the metrics.
