G1 Home

Welcome to the ARNG G1 Gateway

The Army National Guard G1 Gateway is a centralized source for ARNG human resources information. The site provides streamlined access to resources regarding Guard programs, processes, benefits, and policies.

Within the site, users will find tools to include process maps through the "HR Programs and Processes" tab. The "Policies and Regulations" tab links users to policy libraries maintained by ARNG personnel divisions. The Gateway serves the personnel community, Soldiers, and Families with accurate, Guard-specific information.

New Users

- Requesting access to a new application: Select the application name from the list below, or click the G1 Orb in the top left-hand corner of the screen and select the application from the drop-down list. Then, complete the on-screen instructions to request access.
- Accessing an application: Your five most frequently used applications are displayed in tabs on the Ribbon Toolbar. If you need to access an application that is not currently on-screen, select the application from the list below, or navigate to it from the G1 Orb.
- Viewing the site: If you are having difficulty viewing the site properly, please look at the [System Requirements](#) page and ensure that your computer is running the correct software.
- Reviewing G1 Help: Click the Help icon to review general information and instructions for the website. Each application also contains detailed help accessible via the ribbon toolbar. If you are having difficulty viewing the site properly, please look at the [System Requirements](#) page and ensure that your computer is running the correct software.

DPRO daily production numbers at the previous business day's numbers appear not later than (NLT) 5 PM (EST). For example, Monday's data appears NLT 5 PM (EST) Tuesday; Friday's data appears NLT 5 PM (EST) Monday. The exception to this rule is the last day of the month, when the data will be available NLT 7 AM (EST) on the second following business day.

While DPRO data is updated daily, not all of the source tables that feed the data warehouse are updated daily. TAPDB-G data is currently received on a daily basis when processed by NGB-AIS. DFAS Pay data is updated twice per month. Supplemental SIDPERS data, including Authorizations, Unit, Awards, and LSDB, are received monthly. Affected metrics may not change, or may only decrease to account for losses to the given populations.

**DPRO**

The Director's Personnel Readiness Overview of metrics that are updated daily and available for management, attrition, retention, accession, and military readiness. DPRO pulls information from more than a dozen primary data sources, including:

- Total Army Personnel Database - Guard (TAPDB-G) Authorizations
- Standard Installation and Division Personnel Reporting System
- Military Entrance Processing Station Database (MEPS)
- Medical Operational Data System (MODS)
- Defense Eligibility Enrollment Reporting System (DEERS)
- Civilian Employment Information (CEI)
- Leads Database
- Information Management and Reporting Center (IMARC) Database
- Military Funeral Honors (MFH) Database
- VULCAN Recruit Sustainment Program (RSP) Database

Customize your home page by creating a dashboard or report to display once logged onto DPRO. Once you have created your dashboard/report to be your homepage, just click on the yellow house to view your home page. The next couple of slides demonstrate 2 different home pages, (CPSR and a dashboard).

Once logged into DPRO, this page will display, which is the default homepage for DPRO.

The a... g tools:

- basic and advanced dashboards
- pre-defined reports
- drillable views
- historical trend tools

DPRO users can also create unique presentations, tailor reports, and communicate with other users.

# Getting Started-Command Navigator

Use Command Navigator to filter the data you want to see to a specific command/hierarchy.

**DPRO**

The Director's Personnel Readiness information system. It provides access to thousands of metrics that are updated daily and enable custom reporting in the areas of strength and attrition, retention, and more than a dozen primary data sources, including:

- Total Army Personnel Database (TAPDB-G) Authorizations
- TAPDB-G Personnel
- TAPDB-G Loss
- Army Training Requirements and Resources System (ATRRS)
- Personnel Reporting System (SIDPERS) Awards
- SIDPERS Local Supplemental Database
- Recruit Quota System (REQUEST)
- Defense Finance and Accounting Service (DFAS)
- Primary Entrance Processing Station Database (MEPS)
- Medical Operational Data System (MODS)
- Defense Eligibility Enrollment Reporting System (DEERS)
- Civilian Employment Information (CEI)
- Leads Database
- Information Management and Reporting Center (IMARC) Database
- Military Funeral Honors (MFH) Database
- VULCAN Recruit Sustainment Program (RSP) Database

The application also provides users with access to many data analysis and reporting tools:

- basic and advanced DPRO dashboards
- pre-defined reports
- drillable views
- historical trend tools

DPRO users can also create unique presentations, tailor reports, and communicate with other users.

# Leadership Reports

**There are over 200 leadership reports in 17 categories. Leadership Reports are in the form of excel spreadsheets.**

The Director's Personnel Readiness Overview (DPRO) application is a comprehensive management information system. It provides access to thousands of metrics that are updated daily and available for reporting in the areas of strength, attrition, retention, accession, and accessions.

- Total Army Personnel Database - Guard (TAPDB-G) Authorizations
- TAPDB-G Personnel
- TAPDB-G Loss
- Army Training Requirements and Resources System (ATRRS)
- Personnel Reporting System (SIDPERS) Awards
- SIDPERS Local Supplemental Database
- Recruit Quota System (REQUEST)
- Defense Finance and Accounting Service (DFAS)
- Station Database (MEPS)
- Medical Operational Data System (MODS)
- Defense Eligibility Enrollment Reporting System (DEERS)
- Civilian Employment Information (CEI)
- Leads Database
- Information Management and Reporting Center (IMARC) Database
- Military Funeral Honors (MFH) Database
- VULCAN Recruit Sustainment Program (RSP) Database

The application also provides users with access to many data analysis and reporting tools:

- basic and advanced dashboards
- pre-defined reports
- drillable views
- historical trend tools

DPRO users can also create unique presentations, tailor reports, and communicate with other users.

I still need to drill down. If I had set my command navigator to the specific command I would not have to continue to drill down to get my "by name list". This is a good report as is, but getting the by name list is more useful especially if the report is exported to excel or subscribed to. Remember this: "what you see is what you get", so make sure what you have in front of you is what you want to receive or share.

Inbox - Microsoft O... | DPRO | 4 Internet Explorer | Microsoft PowerPoi... | 11:50 AM

I have the option of drilling down by BDE or I can click on the total to get the Soldier listing. Once I have the information I want on my screen, then click on the export to excel. This would not be a very useful report as it is right now.

# Leadership Dashboard-Editing

The screenshot shows the ARNG G1 Personnel Gateway interface. The main content area displays a leadership dashboard for NOVAL Pay. The dashboard includes a navigation menu, a search bar, and four line charts comparing 'Previous FY' (blue line) and 'Current FY' (red line) data across months from October to September. A callout box with arrows pointing to the minimize button of the first chart contains the text: "Click the minimize button in your metric box, and the remaining metric boxes will resize to fill the page." The dashboard also features a 'Run Date' of 20130809 and various unit filters (Unit State: TX, MACOM: TXCMD, Division: 8BBF7, Brigade: QEAF0, Battalion: PMUAA). The bottom of the screen shows the Windows taskbar with several open applications and the system clock at 12:28 PM on 8/13/2013.

UNCLASSIFIED

# Leadership Dashboard-Editing

The screenshot shows the ARNG G1 Personnel Gateway interface. The browser address bar displays <https://arngg1.ngb.army.mil/Portal/RibbonMenu.aspx>. The user is logged in as irene.torkildson. The dashboard displays several metrics for the year 20130809, including NOVAL Pay, ETS Expired, and DMOSQ Percent. A context menu is open over the 'NOVAL Pay 20130809' chart, showing options: 'Save Dashboard', 'Load Dashboard', 'New Dashboard', and 'Metric Boxes'. The 'Metric Boxes' submenu is expanded, showing 'Add New Metric Box(es)' and 'Remove Metric Box(es)'. A text box explains that metric boxes are added automatically and can be reordered by clicking and dragging. Another text box explains that after removing metric boxes, the 'Remove Metric Box(es)' option should be turned off.

**Metric boxes you add will automatically be placed at the end of the dashboard's last metric box. To change the order just click and drag the metric box where you want it to be.**

**After removing metric boxes, make sure to turn the "remove metric boxes" off. To do so, click on "Remove Metric Box(s)" once you are done removing metric boxes.**

# Leadership Dashboard-Save

The screenshot displays the ARNG G1 Personnel Gateway interface. At the top, the browser address bar shows <https://arngg1.ngb.army.mil/Portal/RibbonMenu.aspx>. The page title is "G1 Portal" and the user is identified as "irene.torkildson" with a "Log Off" link. The "Last Logged on" timestamp is "08/13/2013 08:45:52 EST".

The navigation menu includes "Info", "Rucksack", and "DPRO". The "Rucksack" tab is active, and an arrow points to it with the text: "Your dashboard can be viewed/edited by clicking on 'Rucksack' and going to your 'Private' space." The "Rucksack" menu contains "Command Navigation", "Alerts and Subscriptions", and "User Settings".

The main content area shows several dashboards, including "NOVAL Pay 20130809", "NOVAL Pay >= 6 Months 20130809", "ETS Expired > 30 Days Ago 20130809", and "DMOSQ Medically Non-Deployable (MRC 38) 20130809". Each dashboard displays a line chart comparing "Previous FY" and "Current FY" data across months from October to September.

A "Save Dashboard" dialog box is open in the center, titled "Save Entity As". The "Name" field contains "TX Test Aug". The dialog offers the following options:

- Private
- Shared
- System Defined
- Template
- Overwrite Existing
- Save As New

Buttons for "Confirm" and "Cancel" are at the bottom of the dialog. An arrow points to the "Save Dashboard" button with the text: "To save your dashboard in your rucksack, click on 'private'. If this is a first time save, click on 'Save as New'. After your initial save, make sure to click on 'Overwrite Existing'".

The Windows taskbar at the bottom shows the system clock as 12:53 PM on 8/13/2013, along with icons for "State Visits", "Army Knowledge...", "G1 - Windows Int...", and "Microsoft PowerP...".

DPRO

The Director's Personnel Readiness Overview (DPRO) application is a comprehensive management information system for both current and historical dates. These metrics enable custom reporting in the areas of strength management more than a dozen primary data sources, including:

- Total Army Personnel Database - Guard (TAPDB-G) Authorizations
- TAPDB-G Personnel
- TAPDB-G Loss
- Army Training Requirements and Resources System (ATRRS)
- Strength Management
- SI
- Re
- De

Roster builder is quick and easy way to build a roster/report. It's as simple as Point, Click, Drag and Drop.

In the following example, I am building a roster that reflects "Strength" specific information.

The application also provides users with access to many data analysis and reporting tools:

- basic and advanced dashboards
- pre-defined reports
- drillable views
- historical trend tools

DPRO users can also create unique presentations, tailor reports, and communicate with other users.

# Entity Toolset-Soldier Locator

The screenshot shows a web browser window displaying the ARNG G1 Personnel Gateway. The page title is "G1 Portal" and the user is logged in as "irene.torkildson". The navigation menu includes "Info", "Rucksack", and "DPRO". A search bar is visible on the right side of the navigation area. The main content area features a "Search" section with the following fields:

Full Name (Last First Middle):	<input type="text" value="Full Name (Last First Middle)"/>	SSN:	<input type="text" value="SSN"/>
Home Zip:	Within <input type="text" value="# of miles"/> Miles Of <input type="text" value="Zip Code"/>	Unit State:	<input type="text" value=""/>
UPC:	<input type="text" value="UPC"/>		

Below the search fields are "Search" and "Reset" buttons. A "Help" link is located at the bottom left of the page. A dropdown menu is open over the "Entity Toolset" link, showing options: "Roster Builder", "Soldier Locator", and "Unit Explorer".

Annotations on the slide include:

- A box pointing to the "Soldier Locator" option in the dropdown menu: "Click on the expand button for a step by step how to".
- A box pointing to the search fields: "Searching for a Soldier is easy with 'Soldier Locator'. The next slide is a result of my search. In my search criteria, I entered only a last name and specific state. To hone in on your search, inputting as much information as you can, will reduce the number of results."

The browser address bar shows the URL: <https://arngg1.ngb.army.mil/PRAS/SoldierLocator/Landing.aspx>. The system tray at the bottom shows the time as 2:35 PM on 3/22/2013.

**DPRO**

The Director's Personnel Readiness Overview (DPRO) application is a comprehensive management of metrics that are updated daily and available for both current and historical dates. These metrics provide management, attrition, retention, accession, and military readiness. DPRO pulls information from various data sources, including:

- Total Army Personnel Database - Guard (TAPDB-G) Authorizations
- TAPDB-G Personnel
- TAPDB-G Loss
- Army Training Requirements and Resources System (ATRRS)
- Standard Installation and Division Personnel Reporting System (SIDPERS) Awards
- SIDPERS Local Supplemental Database
- Recruit Quota System (REQUEST)
- Defense Finance and Accounting Service (DFAS)
- Military Entrance Processing Station Database (MEPS)
- Medical Operational Data System (MODS)
- Defense Eligibility Enrollment Reporting System (DEERS)
- Civilian Employment Information (CEI)
- Leads Database
- Information Management and Reporting Center (iMARC) Database
- Military Funeral Honors (MFH) Database
- VULCAN Recruit Sustainment Program (RSP) Database

The application also provides users with access to many data analysis and reporting tools:

- basic and advanced dashboards
- pre-defined reports
- drillable views
- historical trend tools

DPRO users can also create unique presentations, tailor reports, and communicate with other users.

The Quick Guide is about 30 pages long and on page 26 identifies when each of the data sources update the data warehouse. The PDF file is over 300 pages long and is very detailed.

## Formation View

The Formation View is a tool used to graphically display Soldiers assigned to both authorized attributes and metrics associated with those Soldiers. The tool also allows for the exploration of metrics to identify potential candidates to fill those positions. It is accessed through the Analytics menu.

This is what will appear. To the left are other guides you can open without having to leave the application you are currently in. Once done with the guide, just close the window and you will be returned to the application you were last in.

## Accessing The Formation View

1. Click the **Unit Management** menu, under the *Tools* section, and then select **Formation View**

**Note:** Where applicable, the display metric "Percent" column is shaded (red-amber-green) based on the metric's approved scale, which is defined at the bottom left-hand side of the page. The map image on the left-hand side is also shaded to reflect the color of the aggregate assessment, and the numeric aggregate category totals are displayed above this icon.

# ***G1 Digest***

One of the ARNG G1's tools to improve personnel readiness is the ARNG G1 Gateway. Every week, featured news stories and announcements are posted to the site in support of the Director's Strategic Imperative. Subscribing to the Weekly Digest will ensure you receive updated ARNG G1 information from the National Guard Bureau. The Weekly Digest email, distributed on Thursdays, summarizes G1 strategic communications, policies and regulations (PPOMs, EIOMs, SMOMs and MEDSOMs). The attached G1 Gateway Summary sheet describes additional site capabilities contained within the G1 Personnel Gateway.

To sign up, go to <https://g1arng.army.pentagon.mil> and click "Subscribe to the Weekly G1 Digest" in the middle of the page. Enter your email address and click "submit." Thank you for staying connected to the ARNG G1 and all you are doing to improve personnel readiness. Do something to promote shared knowledge and share this useful link with your Soldiers.

# *Conclusion*

- DPRO is an excellent tool for leaders at all levels to PROPERLY manage personnel.
- Utilization of this tool will lead to more accurate USR management, which better empowers NGB to acquire resources for the states.
- DPRO is a tool that cannot be “broken” at the user level; the best way to learn the system is to USE the system and learn the capabilities of all the metrics.
